

Certified Rental Properties

The purpose of the Rental Inspection and Certification Program is to ensure that all rental property in the City of West Lafayette meets minimum health and safety standards. For a property to be certified it must be periodically, comply with a minimum standards code and be inspected and be subsequently certified. For information on the Rental Inspection Program and the requirements please visit <http://www.city.west-lafayette.in.us/services/codeenforcement/index.html>.

The following properties have met the requirements and are currently certified based upon the most recent inspection. If a property does not appear on the list or if you have questions regarding the certification program please contact the Department of Development at (765) 775-5160.

The list is updated monthly as properties are systematically inspected throughout the City. A complete sweep of the City is referred to as a Round with the highest Round number being the current Round. Rentals are recertified or inspected every year, two years or four years depending upon if the property is a house or an apartment building. When the rental property comes due its recertification it is removed from the certified list until it has complied with all the requirements and become certified.
